

Daddys Favorite Pop

Tonae was a little girl just trying to be a little girl until she began having the most unusual relationship any child could have with her daddy. She tried to understand her daddy, but he was too complicated and already set in his ways. She had to become a woman at an early age, knowing all along her mama knew about her and her dads relationship. Tonae had to find out what was up with her mama, and she had to put up with her daddy until she figured out the familys history. So get ready to read and understand that we all have pain inside. For Antoinette Smith, Daddys Favorite Pop helped to get some of her pain out.
