

# IEC 62054-21 Ed. 1.0 en:2004, Electricity metering (a.c.) - Tariff and load control - Part 21: Particular requirements for time switches

Specifies particular requirements for the type test of newly manufactured indoor time switches with operation reserve that are used to control electrical loads, multi-tariff registers and maximum demand devices of electricity metering equipment. This title may contain less than 24 pages of technical content.
