

The Dark Things (Oberon Modern Plays)

Daniel is famous. He has walked away from disaster and turned it into art. As he prepares for the ultimate exhibition of his life, the headlines proclaim him unbreakable. But inside, Daniel is falling apart. LJ has always been a survivor, in total command of her emotions. Since being bound to Daniel by a freak accident, she can't quite seem to get her heart under control. Steph wants to be special, to have her photo in the paper for once, and not just because she's Daniel's sister. Can Karl, who claims to be in production, invent a future where they both get recognised?
