

Excerpt from The Family Life of Heinrich Heine: One Hundred and Twenty-Two Family Letters of the Poet Hitherto Unpublished From College Days to His Days to His Death It would be indeed strange if so modern a thinker and one who in some respects stands with the first in German literature should fail to remain a figure of uncommon picturesqueness and to challenge the interest of those who regard as antiquated his views of the struggle between the people and the privileged classes. It is not only as a literary star of the first brightness, but as captain in the battle America has been fighting for more than one century, that Heine claims our sympathies.
