

The Hole in the Attic Gang

While Martin Baer may have developed a misanthropic view of his classmates after moving from school to school his whole life, everything changes, ironically, when he is expelled. Falsely accused of drug charges, Martin finds refuge in an abandoned building on the campus of his new preparatory school along with four other students. The only thing this motley crew has in common is their expulsion, but they work together to investigate this mystery and take revenge on their adversaries. Never knowing who to trust, Martin and his friends uncover a much deeper conspiracy than they ever expected.
