

The Happy Man Lied: A Tale of Trial, Truth and Transformation

If you could but see it, nearly everything about the way human culture treats sex is expressive of fear. If sex were a child, it would be the most battered and brutalized child in the universe. In its genuine spiritual or authentic character, sex is repressed, suppressed, denied, covered up, legislated, caged, and not allowed to see the light of day; while, at the same time, in its institutionalized and public expressions it is distorted, exploited, ridiculed, flagrantly flashed in everyones face and paraded through the streets. This book is the narration of a young man who died of AIDS in the early 1990s. It is a graphic description of his homosexual drives and engagements. Then it turns to his personal encounter with the Grace of God. That is followed by his ongoing transformation and a prophetic ministry from God through him. Can it aid the reader to wake-up to the power of the Risen One that resides within those that believe?
