

## Prison Sex Slave: What Happens Behind Bars?

**WARNING:** If men having sex with men offends you then this book is NOT for you. **ADULT ONLY.** John Singleton was always straight as an arrow. That was until he met Morris, an ex-convict who taught him how to rob and how to fuck another man well and good. After a few robberies with his gang, they met an accident and everyone died except for John. Although in critical condition, he survives. When he gets well, he now pays the price for the crimes he did. Inside the prison cell he meets Bruno, his cellmate for quite sometime. He widens Johns sexual experience with a man and his ass hole. But Bruno did not stay long so John was left alone. Then came Brian. Being a newcomer in prison, Brian is blackmailed by John to be his new fuck toy. Nighttime is when it happens until John develops certain feelings towards Brian that he has never felt with anybody else before, be it with a man or a woman... **SAMPLE 1:** Just say yes. Youve fucked her so why not fuck the brother. Youll like it, he said, and I wondered if he was having me on. Er, er, have you done much of this then? I asked, not really thinking of what to say. Oh yes. Nearly every day while inside. I didnt like it at first but came to love having a strong man up behind me and you look quite strong, and knowing my sister guess that youve got a big cock. I didnt quite know what to say. Youll like it, I promise you. Ill even suck on you too. Now Ive had a woman suck on me and I did enjoy that, but with another man doing it? The sucking I could say yes to, but the fucking of him? Come on. Youll enjoy it, he said standing up and taking hold of my hand. For some reason which I cant account for, I stood up and let him lead me into what was his bedroom. My mind was all in a whirl and had butterflies in my stomach as he stroked the front of my trousers, alarmed at having my body respond to his touch. It feels big, he said as he began to undo the

front of my trousers and I just couldnt seem to move to stop him and had him pull my erection fully out and have him appear to weigh it in his hand before he suddenly went down onto his knees and took the head of it into his mouth. SAMPLE 2: I flinched when his hand came onto my hip as he got onto his knees behind me and I heard him spit and guessed this was for lubrication and would be smearing it over the head of his cock. With my legs being pushed further apart, knew he could then see the target he was aiming for and flinched again as I felt the head of his erect cock touch the entrance to my back passage and took in a deep breath as I felt the pressure start as he leaned in towards me.

Relax, he said behind me as his other hand came onto my other hip. Relax that muscle or it will be painful. With him pushing now I was finding it harder to relax as he said until I got a sharp sudden slap on my thigh which made me jump, but at the same time, the head of his cock entered me.

SAMPLE 3: That was okay for a first timer, I said. Do you know youve got a hard on? I know, he replied, looking, what I thought, a little ashamed. Something which he shouldnt have been, for it was quite a nice looking erect cock, one that would be worth sucking on. It came up whilewhile I was, er, sucking on you, he stammered. Dont worry about that and Im sure that they noticed it too and with me getting onto this bunk with you will know exactly what Im going to do, I said. And whats that? he asked. Im going to suck on you in return of your sucking on me, and moved myself down the bunk until the head of his erection was in front of my face and I had my legs hanging out over the end of the bunk...
