

## The Murder of the First Gay President - The White House Conspiracy (Gay Conspiracy)

What if the First Gay American President was in the closet, married and suddenly outed? What if he murdered his lover to cover up his affair? What if this same President turned out not to have been born in the United States and was infact Islamic but the American public had been lead to believe he was one of them? What if the only way to cover up these facts was to cause the Second Civil War in the United States? and what would happened when the American people found out? This is fictional dramatization of what might have been if a married, half white, half black gay man was elected to the highest office in the land and the results of such an election. Could it happen?
