

Nasty, Nasty Boy

Nasty, Nasty Boy springs from the memoirs of Clay Walker, a gay African American male. At the age of 21, he decides to leave a religious commune where he has lived and worked for the past four years. He departs because his religious views conflict with his sexual orientation. Did he make the correct decision? That's the decision he ponders as we follow this young man through life, and admire or despise the manner in which he deals not only with the injustices surrounding being African American in a racist society, but also with those of being a homosexual in a homophobic society professing Christianity. Is it Christian, or is it simply? You decide.
