

## The Pouch - A Story About Sacking Up

A satire about dating in Los Angeles. I can see myself with you. Living in L.A. with his best friend Seth, Fitz learns that Seth's sister will be crashing on their couch while she looks for a place to live. After years of suppressed love - memories and feelings about Anna mess with his mind. Fitz is given The Pouch - a pouch full of mints that are laced with magic. They allow him to travel into the future to see how the first woman he touches is really like. He meets several prospects, then finally realizes Anna's back in his life - on his turf. Does he have any game?
